## STETTLER RANCHER FATALLY SHOT THROUGH SHACK WINDOW

William Lennox, Last Night,  
the Victim of Dastardly  
Attempt at Murder

### WHOLE COUNTRY SCOURED FOR THE WOULD-BE MURDER

Dying Man Makes Depositions  
on Circumstances of the  
Shooting

Bulletin Special

**Stettler.** March 24.—William Lennox, 25 years of age, a wealthy and popular rancher residing in the Stettler district, was in the Stettler Hospital at the point of death from a bullet wound received last night dastardly attempt to murder him was made by some unknown party who had shot through the window of the shack in which Lennox was sitting, engaged in conversation with his wife, Mrs. Lennox, and a ride ball stuck Lennox in the shoulder, and, glancing from the horse, he fell unconscious, hitting the part of the face. He was brought to the Stettler Hospital by neighbors and relatives, though it was not until 11 o'clock this morning. His life is despaired of, but he has been able to make a series of deposition on the circumstances bearing on the shooting.

#### Shooting Causes Sensation.

The whole countryside has become aroused as news of the shooting spread, and the districts and the districts of Stettler are being scoured for the person responsible. The revolver used in the dastardly deed by the R.N.W.M.P. is still missing.

**Edwards.** March 24.—The suggestion that the arbitration agreement might be violated by the shooting of Mr. Edwards, who was a popular figure in the community, has been accepted here, now as a compensation, for what was done to him.

Edwards realized this was a mistake in his last night's action. When the shot was fired the darkness was quite so great that he did not know where he was.

Under the conditions he escape from the scene of the shooting could be easily effected.

#### Makes the Only Motive.

No motive can be found for the attempted murder but that of malice. Lennox, who refers to Mr. Edwards' shooting as "the usual clapping about and shouting," was a man who made a small community among themselves. He has no relatives, and the only ones he had were a father, who lived with him for a time, having died two years ago. He is the owner of two sections of land and of a big bunch of cattle and horses, worth in all, probably \$10,000.

**Inspector Worrell.** March 24.—The Commissioner of the Edmonton detachment of the R.N.W.M.P. arrived here this afternoon to direct the efforts of the Royal Northwest Mounted Police, who have been summoned by the officers and men of the local detachment.

**Took Care Not to Burn Himself.** Brandon, March 24.—Tom Stedman's shoe store, on the C.P.R. depot, on Main street, was successfully burglarized during the early morning hours, bold men, who cut out the plate glass and took out \$50 in money and a number of ornaments in the window. They escaped.

#### Baseball Players Exchanged.

**Winnipeg.** March 24.—Tom Stedman's shoe store, on the C.P.R. depot, on Main street, was successfully burglarized during the early morning hours, bold men, who cut out the plate glass and took out \$50 in money and a number of ornaments in the window. They escaped.

#### Premier Opens New School at Stettler

**Edmonton.** March 24.—Tom Stedman's shoe store, on the C.P.R. depot, on Main street, was successfully burglarized during the early morning hours, bold men, who cut out the plate glass and took out \$50 in money and a number of ornaments in the window. They escaped.

#### Royal Commission Will Investigate

**Complaints Made by Indians With Regard to the St. Peter's Reserve.**

**Regulator-General Refused to Pass Orders on Transfer of Property From Indians to Federal Government.**

**Winnipeg.** March 24.—A deal was closed today by which First Lieutenant Dally, of the Winnipeg, Manitoba, regiment, will take over the Royal Canadian Dragoon club in Exchange for First Lieutenant Liddle and Shortstone, Langley.

**Montreal.** March 24.—The royal commission, consisting of Judge Prudhomme, Judge Myers, with Judge Locke as a chamberlain, was called yesterday to investigate the complaints made by the Indians with regard to the St. Peter's reserve. A resolution was passed by the attorney general as a result of a petition presented to him by the Indians, who ask that the Indians be allowed the selling of their lands.

It is also requested that the regulator-general of Manitoba would not pass the bill, thus, basing his objection to the transfer of the property to the Indians, and that the amount of money to be held for thousands of dollars if any subsequent suit is brought against the Indians was questioned, and the raisers of the complaint be sued in their claim.

It was also ascertainable as to when the commission will sit, nor who will represent the Indians, or defend the case for the other side.

#### ROBBERS BLEW OPEN MISSOURI BANK.

**Carryington.** March 24.—A gang of robbers blew open the Missouri bank here, wrecking the building and securing four thousand dollars. Two men were around by the blasts, but were afraid to molest the robbers.

#### SIXTEEN FIREMEN MAY HAVE LOST LIVES.

**Minneapolis.** March 24.—Sixteen firemen are reported to have lost their lives in the roof of the Middleton Manufacturing Company's building, which is located on the east side of the city. The damage is estimated at one hundred thousand dollars.

## ANGLO-AMERICAN PEACE PACT IS FINDING FAVOR IN GREAT BRITAIN

Feeling in Its Favor Seem to Be Increasing Daily—There is Some Criticism, of Course, German View Is That It is the Business of the Armies and Navies to Settle Disputes.

**London.** March 24.—The question of Anglo-American arbitration has put all other topics of discussion in the background for a week. Such was the result of the speech of Sir Edward Grey, world at any time among generous-minded people; and his appeal at this point of view met with a hearty response.

He said that the British government, like all other governments, was at any rate, it is pointed out, in favor of arbitration, and that the Japanese government was.

At any rate, it is pointed out, it was agreed that arbitration was wanted by Great Britain and the United States.

It is a simple matter, as Edward Grey said, to give up the right to war.

He said that the Japanese government was in favor of arbitration.

The suggestion that the arbitration agreement which is foreseen along with the peace pact is unnecessary, was accepted here, now as a compromise, for what was wanted by Great Britain and the United States.

## THE OBJECT OF THE ANTIS.

Some Opposition papers deny that the purpose of Mr. Burden and his associates is to force the taking of a map verdict on the reciprocity agreement before the West can get it.

The British Columbian, of New Westminster, B.C., says:

"The Conservatives have been

"... demanding that the Government

"... come up with the reciprocity

"... and proceed to argue a

"... berth that this should be done.

The managing director of the Columbian is Mr. J. A. Taylor, M.P., one of Mr.

Mr. Foster's co-workers in the House.

When he declares that the object he and his friends have in view is to

fight a verdict which would give

the West the reciprocity

"... he means that this is what

he wants to do.

He is not able to explain why he

should not save the country from the consequences.

position—is presented, it will make no position is presented, it will make no practical difference what reason Mr. Lake and his friends offer for helping to bring about the result they want. In fact, the result of their course will be the same—to prevent the farmer gaining free entry to the market for his products and to give him a substantial reduction in the duty on many manufactured articles necessary in his interests. The importance of this lies in the fact that the West members are concerned, the fulfillment or evasion of them is to their support the agreement or try to kill it, as Mr. Lake indicates that it tends to do. Actions are what speak at all. If the actions are what they say at all, if the actions are what they say at all, if the actions are what they should not be, explanations will not save the country from the consequences.

## WHO?

It is curious to observe the alternative offered by Mr. Foster to allay the present hostility to the reciprocity agreement by the introduction of reciprocal legislation.

It is interesting to note what has been the record of the Conservative party on this question, and go to the conclusion upon which reciprocity is based, and proceed to argue a berth that this should be done.

The managing director of the Columbian is Mr. J. A. Taylor, M.P., one of Mr.

Mr. Foster's co-workers in the House.

When he declares that the object he and his friends have in view is to

fight a verdict which would give

the West the reciprocity

"... he means that this is what

he wants to do.

He is not able to explain why he

should not save the country from the consequences.

THE CLIMAX.

A few weeks ago reciprocity was made in these columns to be a silly notion from the mouth of a man who had never been to the French-speaking Roman Catholics to fight reciprocity as they loved their homes and venerated their religion.

Reciprocity, the West argued, was the cause of Quebec's annexation, and annexation the extinction of the privileges they enjoyed as citizens of Dominion.

Now comes the conclusion, produced, it is said, by one Rev. Mr. Steacy. This prophet is accused of having known all along that no dental has been forthcoming.

"The proposed trade pact between Canada and the States, reciprocity, is the cause of the annexation of the West, which is becoming popular by Gallican Douglaston."

Canadian principles, to whom commercial principles, to the United States, were annexation. This would leave Ontario, Quebec and the Eastern provinces to the Roman Catholic Church, while the West, the dominant force here. The centre of the Roman Catholic Church would be Montreal.

There seems to be in this country of ours some who think the alleged lead of the Roman Catholic Church is seriously religious; it is necessarily a fool, and therefore he will be up to us and we will tell him a foolish story to fit in with his religion to his religion or his church. It is

I am guessing that when any public measure of economic importance comes up in the most unlikely place, men will shove him into the limelight to warn the Roman Catholic that his church is not safe, and that his principles destroyed, while another other Roman will protrude his head from obscurity to terrify the rest of the community with the yarn that "Heavenly Hosts are at the ramparts of Protestantism."

This procedure having now been fulfilled in connection with the recent election, we may well wonder if the influence has reached its zenith and that its influence will be less marked in the ensuing convocation. From outside, it remains to show, as in all ages they have shown, that religious soft-headings are not synonymous.

## ACTIONS, NOT EXPLANATIONS.

Mr. Lake, M.P., for Quebec, is faking around for an excuse to oppose the reciprocity agreement. He is not the author of the policy of the Premier that can further reduce, in the general terms, are immediately contemplated. We know that on this ground he will vote against the agreement. This is much the same as refusing to join the Church because the Pope is not Catholic enough. The Pope is not Catholic enough. Mr. Lake and the other western members do not why they say do it. They say that when considering on their action they will consider the motive to it if they see fit; but it is votes and not motives which count in the House of Commons.

The agreement is defective in that it makes no particular difference to the Western farmer and the Western voter who it is addressed to. The agreement affects the former broader market for what he has to sell, and a fairly large reduction in duty on many articles he has to buy. In both ways it promises to be in a position better, and therefore the position of every man whose interests depend upon the farmer's prosperity, if this betterment of the farmer's

EDMONTON DAILY BULLETIN, FRIDAY, MARCH 24, 1911.

Announcement was made yesterday on Mr. Charlton, who serves the Conservative Government of being instrumental in efforts to secure the bill, the result of their concern will be the same—to prevent the farmer gaining free entry to the market for his products and to give him a substantial reduction in the duty on many manufactured articles necessary in his interests. The importance of this lies in the fact that the West members are concerned, the fulfillment or evasion of them is to their support the agreement or try to kill it, as Mr. Lake indicates that it tends to do. Actions are what speak at all. If the actions are what they say at all, if the actions are what they should not be, explanations will not save the country from the consequences.

More than the people of the United States will be interested in the items in our tariff as it shall have paged this House, they will find that line after line, article after article, there are over 22,000,000 products, mostly the largest in America. Now Sold in Bulk.

## THE FINANCIAL AND COMMERCIAL MARKETS

EDMONTON CITY MARKETS

Market Report—Market conditions continue very quiet.

Prices changes are in eggs and butter, which were very quiet last week, but as the market is over-stocked, we have given them a better chance to get into our market than ever before.

So far as trade is concerned, market; consequently legislative reciprocity so far as trade is concerned, the government put before the House today in a far greater degree than it has ever done before.

Government of Mr. Foster was a member had been sending word that they were ready to negotiate a reciprocal arrangement, and Mr. Foster assured parliament in the strongest language that the endeavours had been successful.

Following are the prices :

POULTRY—

# "Queen Mary Park"

The First Sub-division to be Offered  
BY

## The Radial Realty Company, Ltd.

### Advance Notice

"QUEEN MARY PARK" is the name selected for this property in honor of Her Majesty the Queen, and in commemoration of the Coronation Year, which has dawned so splendidly upon this portion of the Empire in which Edmonton the Queen City, is particularly interested.

WITH THE YEAR 1911 commences what all claim must be an era of unparalleled Progress and Prosperity for this City. Keen observers from all parts of the English-speaking world are unanimous on this point. Money and men are pouring into the Edmonton district in ever-increasing volume and Edmonton has become the most talked-of and best advertised city of Western Canada.

WHAT DOES THIS MEAN? It means that those who buy wisely of Edmonton Real Estate will be sowing dollar seeds and reaping a bountiful harvest of tens and hundreds of dollars.

"QUEEN MARY PARK" is situated at the best strategical point of all surrounding the city. It is suburban property. One of the very few locations open for the army of Grand Trunk employees, who absolutely must live close to their work.

### SALE OF LOTS

COMMENCES ON

**SATURDAY**  
9 A.M.

at McDougall Court  
McDougall Avenue South

PHONE 2642

EDMONTON

### Description

PRICES AND TERMS will be such that every Purchaser from us will be able to see his profit right at the start.

"QUEEN MARY PARK" adjoins the North Side of Calder (West Edmonton) and is immediately South of Barton.

THE SURFACE is beautifully level and lies high and dry.

THE LOCATION for the investor or who likes to see his Property quickly "grow into money" is the best of all suburban propositions.

IT IS ESTIMATED by those who are in a position to know that there will be several thousand Homes required close to the Grand Trunk Shops in the near future; if you will call on us we will show you how this estimate is made.

LET US PROVE to you by the Map of the City why you should buy Lots in Queen Mary Park.

TITLE IS CLEAR and Transfer can be obtained upon completion.  
TERMS WILL BE EASY. Watch the advertisement in to-morrow's paper.

## THE HERCULES ROTARY ENGINE CO., LTD. OF WETASKIWIN

### The Hercules Rotary Engine is Destined to Become the Greatest Automobile Engine of the Century

The principle on which the Hercules Rotary works, that of expansion with a rotary movement, is equally applicable to gasoline as to steam engines. This principle is already protected under the patent laws of Canada, United States, Great Britain, France, Germany, Belgium and Japan. It will be protected in other countries as quickly as possible, thereby giving the Company the absolute and exclusive control of the manufacture of this engine throughout the civilized world.

The Hercules Rotary Engine is destined to become the greatest automobile engine of the age. The lightness of the engine in proportion to the power developed, the easy and instantaneous reverse action, the entire absence of vibration, and an engine that will start without cranking, giving four double explosions to each revolution, are features by reason of which this engine will dominate the market the moment it is offered to the trade. The millions of dollars which are being spent annually

in automobiles assures the owners of the Rotary patents enormous returns from Royalties for the manufacture of this engine for the automobile trade alone.

The proprietary rights of the patents are vested solely and absolutely in the Hercules Rotary Engine Company, Limited, and purchasers of stock offered in Edmonton at par to-day will enjoy pro rata the dividends which will accrue from the Royalties for the use of these rights.

The Company is offering only 250 shares at \$100.00 per share, the money to be used in acquiring Patents in other countries and placing the engine on the markets of the world. A large proportion of this stock has already been sold, and the balance is selling rapidly. When the block is closed out it is unlikely any more stock will be placed on the market. It is absolutely certain no more stock will be offered at par.

Now is the time to buy stock in the Hercules Rotary Engine.
